

## Sideways Badge

This special badge will be awarded on the completion of all the hikes in the four groups below. These can be done on your own or on a Club-organized hike, or you can do a combination of hikes on your own and Club-organized.

To qualify for the badge, you just have to do all **15** side trails in the list – a total of 44 kms.

To make it easier to plan your activities, the hikes have been listed in four groups on the following pages. However, it is not necessary to do all the side trails in a group on one "day"; they can be spread around as you wish, as long as one way or another, all the trails listed are completed.

Km markings are from the 29<sup>th</sup> Edition of the Bruce Trail Guide.
