

## Sweetwater Badge Hike Series

The Sweetwater Badge Series celebrates the glorious sugar maple at a time when we herald the arrival of Spring. Should you choose to hike in March and April, you will surely have a sweet time out on the trails, and you may be lucky enough to observe the tapping of the trees and the sugar shacks turning sap into maple syrup.

To earn this Sweetwater Badge, you must complete all six hikes on your own or on organized hikes. You will have a sweet time out on the trails and maybe even be lucky enough to partake in a maple syrup festival along the way. The trails are all in or near the Caledon section of the Bruce Trail. Kilometre references are taken from The Bruce Trail Reference, Edition 29.

Once you have completed all six hikes, send your hiking log (including the date and who you hiked with) and badge requirements for each hike, along with \$5 per badge (member price, please include your BTC number) or \$10 per badge (non-member price) and a self-addressed stamped envelope to the address listed below. Alternatively, you can email your hiking log and badge requirements if this is a more convenient option. Some create a document with the log and pictures as images on the same page. If choosing this online version, you still need to send a cheque and self-addressed stamped envelope.

Sweetwater Badge – Hike #5

### **Mixed Trail Shuttle Hike**

Bruce Trail Reference Maps & Trail Guide, Edition 29, Map 17

Distance: Approx. 15 km

Park: Park a car at roadside parking on Duffys Lane (near 16024 Duffys Lane) just north of Old Church Road. (Note: Enter Duffys Lane from Old Church Road. You cannot follow Duffys Lane south from Highway 9 to the roadside parking as Albion Hills Conservation Area is directly north of the roadside parking.) Shuttle to roadside parking at km 35.1 on Coolihans Sideroad, east of where the Trail crosses the road.

Coordinates (for parking on Coolihans): N 43.937967, W 79.934650

#### Hike:

Take the main Trail on the south side of Coolihans Sideroad.

Hike for approximately 600 m. Watch for the large Oak Ridges Moraine Trail signboard to the left. This point is the western terminus of the approximately 300 km Oak Ridges Moraine Trail.

Follow the Oak Ridges Trail for about 7 km as it travels east to Humber Station Road. Points of reference within this section: cross a single lane road, hike south on Centreville Creek Road for approx. 400 m, hike south on The Gore Road for approx. 500 m.

Humber Station is the next road. Turn right (south) onto Humber Station Road.

Hike on this road for approx. 4.5 km until you reach the Caledon Trailway on the left. Points of reference within this section: Cross Finnerty Side Road, continue on Humber Station Road past where the Oak Ridges Trail leaves the road for the forest (Palgrave Forest), veer slightly left at Patterson Sideroad.

Enter the Caledon Trailway on the left (east) side of Humber Station Road.

Then make an immediate right onto the Humber Valley Heritage Trail (HVHT). Cross over four stiles before you reach the driveway of the Albion Hills Community Farm. (If this section is too wet, you can follow Humber Station Road to the Community Farm.)

Turn left onto the driveway and follow the driveway for approx. 100 m until you reach a fence-protected area on the right. Cross the field to the right of this fencing and follow the white blazes into the forest. (If the field is too overgrown, you can follow the suggested re-route below.)

Continue to follow the white blazes of the HVHT through a section of Albion Hills Conservation Area.

Watch for and photograph the sugar shack. (During winter months, stay to the right of the cross-country ski tracks.)

Continue along the trail to Duffy's Lane and your vehicle.

#### Photo Required:

Take a picture of the sugar shack as you follow the Humber Valley Heritage Trail through Albion Hills Conservation Area.

#### Special Notes:

The HVHTA is a small association. The short section of trail between the Caledon Trailway and Albion Hills Conservation Area is maintained but not regularly. Should you be hiking at a time when the field is overgrown, you can follow the suggested re-route. You could also consider hiking this one from South to North as the destination across the field is more obvious.

The Bruce Trail, the Oak Ridges Moraine Trail and the Humber Valley Heritage Trail are all marked with white blazes.

#### Suggested Re-Route:

Follow the driveway of the Albion Hills Community Farm.

At the Y intersection, go right on the paved road.

Turn right just past the yellow Trail Crossing sign (not going across the bridge over the river) onto the Albion Hills Conservation Area's red trail.

When you cross the river over a bridge, you are back on the original route and you follow the white blazes of the HVHT through a section of Albion Hills Conservation Area. Watch for and photograph the sugar shack. (During winter months, stay to the right of the cross-country ski tracks.)

Continue along the trail to Duffy's Lane and your vehicle.

## **Glen Haffy Loop Hike**

Bruce Trail Reference Maps & Trail Guide, Edition 29, Map 17

When the side trail ends and you meet the main Trail at km 40.6, turn left.

Follow the main Trail south.

Once you complete the Highway 9 crossing and enter Glen Haffy Conservation Area, continue following the white blazes of the main Trail to Coolihans Sideroad and your car.
